

AIRCRAFT MAINTENANCE MANAGER FEATURES	LITE	ADVANCED
1 Login system/ Account manager	√	√
2 Animated help in each section	√	√
3 Full network capability and internet access capability	√	√
4 TC, FAA or EASA forms enclosed	√	√
5 Tracking in hours, calendar time and cycles (flight segment, landings or lifts) on same operation	√	√
6 AD, SB, SL, etc. manager	√	√
7 Complete AD compliance report	√	√
8 Airframe inspections manager	√	√
9 Components manager	√	√
10 Automatic forecast list creation (due list)	√	√
11 Complete aircraft status report	√	√
12 Automatic work order creation	√	√
13 Work orders attachments	√	√
14 Automatic major repair and modification form (337) creation	√	√
15 Automatic journey and technical log book entry creation	√	√
16 Work order templates	√	√
17 Modification manager	√	√
18 Deferred defect follow ups	√	√
19 Recurring defect statistics	√	√
20 Shop tool calibration schedule, personnel license expiration and more follow ups	√	√
21 Fast system updating	√	√
22 Various additional meter (hobbs meters) creation	√	√
23 Printable and automatically saved records	√	√
24 User-friendly flight log to update aircraft time	√	√
25 Allows inserting electronic manuals for consultation	√	√
26 Choice between 2 flight log type		√
27 Custom cycles calculations		√
28 Inspection sheet lists section (task manager)		√
29 Components task list (task manager)		√
30 Components group and assembly creation		√
31 Aircraft templates		√
32 Electronic technical log books		√
33 Easy part transfers from inventory to work orders and maintenance records		√
34 Easy component, group and assembly transfers from an aircraft to another		√
35 Job cards		√
36 Automatic flag cards creation		√
37 Automatic special task activation for ADs, components and inspection		√
38 Accomplishment needs for ADs, components and inspection		√
39 Additional work for ADs, components and inspection		√
40 Inspection task list reports		√
41 Link with inventory for invoicing, internal costs and part transfers for maintenance tracking		√
42 History section with enabled searches		√
43 Essential to flight function		√
44 List of components removed from aircraft		√
45 Weight and balance reports		√
46 Long term projection mode		√

<b>INVENTORY MANAGER FEATURES</b>	<b>LITE</b>	<b>ADVANCED</b>
1 Login system/ Account Manager	√	√
2 Animated help in each section	√	√
3 Full network capability and internet access capability	√	√
4 Customer and supplier management	√	√
5 Tracking number attribution	√	√
6 Quotation request and purchase order creation	√	√
7 Invoice creation and operating cost creation	√	√
8 Superseded and equivalent part number management	√	√
9 Automatic parts to order list (min/max system)	√	√
10 Complete requisition tracking	√	√
11 Parts lifetime tracking	√	√
12 Equipment inventory list capability	√	√
13 Advanced search options	√	√
14 Personalized configuration settings	√	√
15 NSN (National Stock Number) capability	√	√
16 Creation and printing of bar code labels for part identification (bar code system)		√
17 Quarantined part tracking		√
18 Scrap part tracking		√
19 Automatic Form One (TC), 8130-3 (FAA) or Form One (EASA) form creation		√
20 Easy part transfer from inventory to work orders, invoices and maintenance records		√
21 Link with maintenance for invoicing, internal costs and part transfers for maintenance tracking		√
22 Freight cost distribution on same release number		√
23 History section with enabled searches		√
24 Inventory transaction reports		√
25 Aircraft maintenance cost reports and statistics		√
26 Core component tracking		√
27 Packing slip creation		√
28 Retail price adjustment (single item or whole inventory)		√
29 Invoice to operation costs conversion and vice versa		√
30 Customized picking list creation		√
31 Conversion from a quotation request to standard or AOG purchase orders		√
32 Services and miscellaneous capability on purchase orders		√
33 Tracking transfer capability		√

<b>OPTIONAL MODULES</b>
1 Electronic Signature Module (A.M.M.)
2 Air Keeper Module (A.M.M.)
3 AMM Remote Reporting Module (A.M.M. & I.M.)
4 Time & Employee Management Modules (A.M.M. & I.M.)
5 Multi Base Option (I.M.)
6 Component Work Report Module (I.M.)
7 Manufacturing Work Report Module (I.M.)
8 Mobile Inventory Module (I.M.)
9 Inventory Snapshot Tool (I.M.)
10 Template Audition Tool (A.M.M.)
